## BECOME A PART OF THE ESMA KNOWLEDGE HUB

In 2015, ESMA proudly celebrates 25 years of service to the printing industry. The European association for printing manufacturers in screen and digital printing has grown into an organisation representing industrial, functional and speciality print. Throughout the years we developed the Knowledge Hub concept which now expertly serves 65 European manufacturer members and Technology Partners.

Every ESMA member enjoys advantageous terms at major trade shows and ESMA's own conferences. Other benefits include access to technical seminars and committee meetings. Partners and members receive support and advice regarding health, safety and environmental legislation and participate in setting industry standards. Our cooperation with top graphical and industrial exhibitions and many other partners ensures a prominent presence of ESMA members at the world's biggest speciality printing events.

Membership is offered to equipment and supplies manufacturers, as well as to resellers, value-added resellers, distributors, consultants and all other players across the supply chain of printing technology. As a **Technology Partner**, you can also benefit from ESMA's activities that raise industry awareness, pass on know-how and experiences. Joining ESMA provides an exclusive opportunity to meet like-minded colleagues and interact with executives from all facets of the speciality printing sector.

**Technology Partners can join for € 500.**

Visit [www.esma.com](http://www.esma.com) for details about all membership plans.
