

19-20 NOVEMBER 2024 DÜSSELDORF/NEUSS

CALL FOR PAPERS

Specialist printing has been the source of industrial application solutions: Healthcare and pharmaceuticals, automotive, printed electronics, Internet of Things but also the growing success of additive techniques have established **print as a manufacturing solution**. The expansion of fluid deposition systems on diverse surfaces and across various markets have proven how versatile printing can be.

The IPI conference offers ESMA members and non-members a new platform to introduce our industry partners to a world of better, smarter and more sustainable manufacturing possibilities. We want to show the adaptability of a number of print processes **from large to small, from ultra-precision to high speed, from volume production to customisation and mass customisation**.

Screen and pad printing, inkjet, spray coating, as well as other jetting techniques are all welcome to offer their solutions to today's market's crucial issues.

MAIN TOPIC AREAS

TECHNOLOGY

- advanced industrial printing
- industrial print precision
- modular print components
- industry 4.0 integration
- high-level automatization
- integration with robotics

SUSTAINABILITY & ENVIRONMENT

- energy consumption optimisation
- reduction of emissions and waste
- sustainable alternatives to non-print processes

BUSINESS-RELATED CONCEPTS

- on-demand and low cost production
- customisation and personalisation
- near-shoring and future business models

POTENTIAL APPLICATIONS

printed electronics • in-mould electronics • membrane switches • touch panels and screens • sensors • printed batteries • automotive • in-mould decoration • industrial fascia • anti-counterfeit • brand protection • security print • bio-medical • pharmaceuticals • consumer goods technology • functional coatings • printing with graphene • technical glass printing • technical textiles • thin film applications • additive manufacturing

Presentations must not exceed 20 minutes, should be generic, informative, educational and not commercial product presentations. If you wish to consult your presentation idea please contact Maciej Bochajczuk at mb@esma.com or +32 484 721 026.

SUBMISSION DEADLINE: 30 APRIL 2024

SUBMISSION REQUIREMENTS

- Conference language is English.
- IPI is a two-day conference organised at Crowne Plaza hotel in Düsseldorf/Neuss, Germany with a parallel tabletop exhibition of approx. 70 booths. All presentations will need to book a tabletop for commercial information exchange.
- The conference organisers will review all submitted abstracts to maintain the high quality of the conference. Only papers submitted on time and addressing subjects which are topical and relevant to the conference will be considered for inclusion in the conference programme.
- Although most of our speakers are representing the industry, we welcome non-marketing presentations and cannot accept sales speeches. If you are discussing a proprietary technology or production technique, something only your company does, please emphasise the features and benefits of that technique in generic terms only, not by brand or product name repetition.
- The presentation time is 20 minutes with additional 5 minutes for the questions and answers round.
- Due to limited presentation slots, **first-come, first-served** principle applies.
- We will follow up this call for papers with phone calls and correspondence and we will remain available for further questions you may have about this and any other ESMA events.
- We will send the speaker guidelines and deadline for final presentation files in September 2024.

DEADLINE FOR SUBMISSIONS IS 30 APRIL 2024

Please submit

1. title and abstract of approx. 150 words
 2. speaker's profile photo and bio of approx. 50 words
 3. optionally: photos of discussed technology/application for promotional use
- to mb@esma.com**

Industrial Print Integration is an ESMA event

Official media journal

SUBMISSION DEADLINE: 30 APRIL 2024

THAT WAS IPI 2023

“An incredible opportunity to present ideas and get feedback from a highly educated audience.” – Simone Tardini, Sacmi

“A great opportunity to hear and see what is going on within the printer and ink-related industries.” – Solomon Kimani, Domino Printing

“An event to connect with the top players in the printing industry, from screen to ink-jet printing, with a lot of interesting talks about improvements and new application possibilities.” – João Silva, TMG Automotive
